

Waterman Center for the Arts, Bath, New York

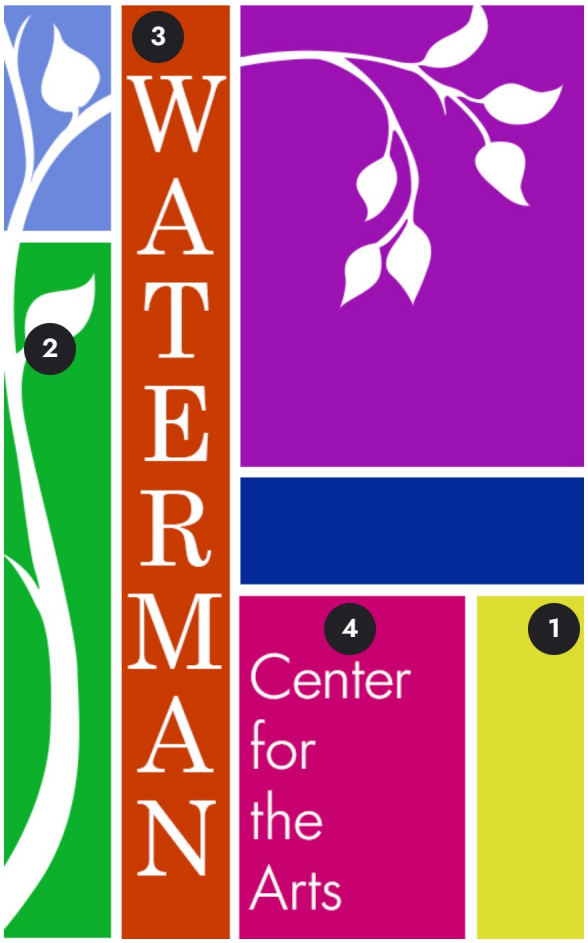

Logo Guide

How the logo is built, which version to use where, and how to keep it looking its best.

Draft for review, November 2026

The logo

A grid of colored blocks with a white vine growing through it. The blocks are the many kinds of art made here; the vine is something new growing in an old building.

1 **Eight color blocks**

Periwinkle, green, rust, purple, cobalt, magenta and chartreuse, always at full strength, in this arrangement.

2 **The vine**

Always white. It grows up through the left column and branches across the purple block.

3 **WATERMAN**

Century Schoolbook Regular, set vertically in the rust bar.

4 **Center for the Arts**

Futura Book, stacked on four lines in the magenta block.

5 **White gutters**

9 pixels at full size, the same width everywhere. They keep each block a separate tile.

Six versions

Pick the version that fits the space. Never build a new one.

Vertical, full color

The primary logo. Posters, signage, the building banner, the website homepage.

Vertical, charcoal

One-color printing, newspaper ads, engraving, merchandise.

Compact mark

Social media avatars, app icons, watermarks, small square spaces.

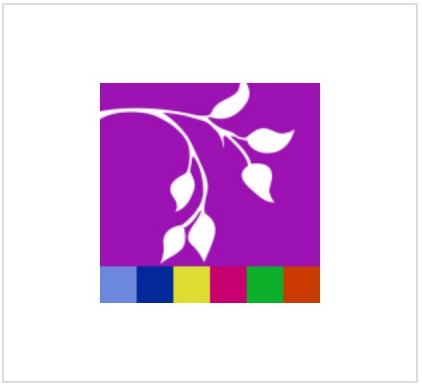

Horizontal lockup

Website header, letterhead, email signatures, forms, wide banners.

Horizontal, reversed

Dark backgrounds. Pending fix: the branch should stay white.

Icon

Browser tab favicon and app icon, 32 pixels and up.

Clear space and size

Give the logo room to breathe. Nothing (text, photos, edges) comes inside the dashed line.

Vertical: clear space equals the width of the rust WATERMAN bar on every side (the small rust square).

Horizontal: clear space equals the height of the WATERMAN capitals.

Minimum size

Version	Print	Screen
Vertical	1 in wide	120 px
Horizontal	1.75 in wide	180 px
Compact mark	0.5 in	48 px
Icon	0.5 in	32 px

Below these sizes, "Center for the Arts" stops being readable. Switch to a smaller version instead.

Color

Eight colors, exactly as they appear in the logo file. Use them at full strength, never faded or as gradients.

Aa dark text

Periwinkle

HEX #6c88dd
RGB 108, 136, 221
Logo and decoration

Aa dark text

Green

HEX #0db02a
RGB 13, 176, 42
Logo and decoration

Aa white text

Rust

HEX #c93b00

Center for the Arts; classes

Aa dark text

Chartreuse

HEX #dddd32
RGB 221, 221, 50
Logo and decoration

Aa white text

Charcoal

HEX #303030
RGB 48, 48, 48
One-color logo; dark grounds

Three colors with a job

On the website, magenta always means classes, purple the gallery and rust giving. The other five are brand decoration.

Print values

CMYK and Pantone matches still need to be set with the printer, using these hex values as the target.

Typefaces

The same two typefaces as the logo, everywhere the Waterman speaks.

Headings and the WATERMAN wordmark — Regular only

Century Schoolbook

Make art in Bath. ABCDEFGHIJKLM nopqrstuvwxyz 0123456789

Body text, labels, buttons and “Center for the Arts” — Book and Medium

Futura Book

Classes for kids, teens and adults. ABCDEFGHIJKLM nopqrstuvwxyz 0123456789

Free stand-ins

When the real fonts aren’t available: TeX Gyre Schola for Century Schoolbook, and Jost for Futura. This page uses them.

Sentence case

Headings, buttons and signs are written in sentence case. The only all-caps word is WATERMAN in the logo.

Please don’t

Every one of these changes what the logo says. When in doubt, use the file as it is.

Stretch or squash it

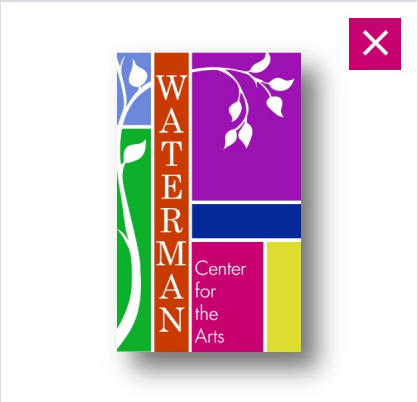

Change the colors

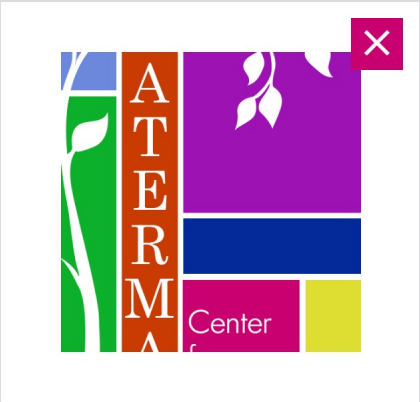

Tilt or rotate it

Fade it or set it on a busy photo

Add shadows, glows or outlines

Crop it or pull pieces out

Also: don’t rearrange the blocks, swap the typefaces, retype “Center for the Arts”, or draw the vine in any color but white.
